Advanced	Underground Israel	42h	Tuesday	18:00:20:30	1390 NIS

SHALOM IVRIT

HEBREW FROM THE BEGINNING

TINAU's introductory Hebrew course provides a foundation in the language. We will start from the very beginning including: how to introduce ourselves and get to know each other, how to get around in the city, and how to express our basic needs. We will also learn together how to share our thoughts, ideas, and feelings.

As part of the learning process, we will become familiar with the cultural and conceptual world that lies between the Hebrew words and letters alongside the initial familiarity with the language. We will learn the foundations for reading, writing, speaking and understanding, by using diverse learning methods - from white-board and worksheets, through conversation, games, songs and videos, to tours in the city and other outdoor activities.

This class is suitable for complete beginners (or those who have already mastered a few words!) TINAU's classes are a safe and accepting place, so come ready to express your thoughts, opinions and passions.

NAVIGATING JLM

TAKE YOUR HEBREW TO THE NEXT LEVEL!

TINAU's Beginner Plus course has been designed for those who have recently started their Hebrew journey. Therefore, if you know your aleph bet but not your binyanim (verbal forms), if you can introduce yourself a bit but can't explain your life's passions, if you want to build speaking ability whilst getting to grips with grammatical nuts and bolts, this course is for you!

Classes will be dynamic and creative: with songs, and games you'll be getting out of your chairs and (gently) out of your comfort zone. We'll start with practical everyday situations and move on to some of Jerusalem's cultural and political issues.

We'll study texts written by other learners and write our own. The course will adapt around your interests whether that's working out what your downstairs neighbours are arguing about, what the soldiers at the checkpoint are saying to you, or how to smoothly compliment someone on their new outfit!

PUZZLING ISRAEL

READY TO PUT THE PIECES TOGETHER?

In this course, we will puzzle together the big (and often messy) picture of Israel. Each week is dedicated to a different piece of the puzzle, so you'll critically explore a variety of topics: Israeli art, history, childhood and much more. At the same time, you'll take your speaking skills to the next level with a variety of methods: discussions, improv theatre, scenarios, songs, activities, trips and more!

This course is for learners who are beyond the basic conversational level and can communicate in Hebrew in the present and past tense and form their own sentences. In this course, you will get more creative and confident with the language and be able to communicate with more complexity.

UNDERGROUND ISRAEL

WANT TO EXPLORE UNDERGROUND CULTURE AND POLITICS?

Have you always wanted to know how to say in Hebrew: occupation, mansplaining, pink-washing, freeganism and more? Then, this is the course for you!

Together we will learn about unexpected events, initiatives, struggles and protest. We will meet people who had crazy ideas that turned into something real and deepen both our Hebrew and our understanding of Israeli society from the underground up.

The course is suitable for you if you are already confident in the language, and will predominantly be based on speaking with some work on reading and writing. Throughout the course, we will study and discuss a range of authentic materials: songs, social media posts, articles and more giving you the best insight into the other side of Israeli life.

HOW WE TEACH

The goal of our classes is to equip you with the tools to handle everyday life in Hebrew or Arabic. This also includes leaving the classroom sometimes to take fun and fascinating trips related to the course content.

Thanks to a variety of activities (games, singing, movement, or cooking), our classes are extra interactive and engaging, designed to encourage our students to start speaking from the first class onwards. This way, we build your confidence in the classroom to engage with your surroundings in Hebrew or Arabic.

FANCY LEARNING ARABIC?

We also offer Arabic courses on three levels.
Check them out and have fun learning languages.
